

AVC

Achievements to make this university “A Mass University”

- Successfully conducted first FM Radio text project
- The AVC team also produced syllabus based environmental films for UGC’s Second year students. Two of these programmes received international awards at Florida and Finland. Produced more than 100 agricultural programmes- and special programmes for Swachha Bharat
- Mr Abhay Kulkarni and Mr Jagdish Kulkarni were sent to Hong Kong for training of Non linear editing. This was very first time such abroad training was imparted to AVC staff
- Mr Abhay Kulkarni was deputed to Shrilanka and Malaysia for Project under COL.
- AVC successfully conducted the project of VLCs through association of ISRO. This two way interactive video system is installed in AV campus with specially constructed on line video studio.
- Since last 4 years AVC runs a successful web radio programme titled Yashwani. This programme is highly useful for reaching to masses (as per motto of the university) and this programme has benefited many students. The programmes are freely available on internet with a normal net connection.
- Produced TV advertisements for promotion of YCMOU courses – These advertisements were telecast on Doordarshan and it reached all Maharashtra
- AVC has recorded distinguished and eminent personalities – Like P L Deshpande, Vasant Kanetkar, Jabbar Patel, Hon Sharad Pawar, Kadar Khan, Asha Bhosle, Shivajirao Bhosle, Sharu Rangnekar , Boris Ersson and many others.
- AVC has successfully telecast its all programmes on Doordarshan Marathi channel AVC is using YouTube channel to spread its videos
- AVC records all major events, convocations and programmes in YCMOU. Thus the main content/ lectures/ thoughts expressed are archived.

- Mr Jagdish Kulkarni has attended video production training programme at Finland and Armenia while his official tour for receiving award. With his tour – a group of video producers and media technicians is now associated with AVC. With their guidance we could get important technology and visuals needed for our films.
- European Commission (EU) Brussels provided their rare visuals related to Nature and space for our Environmental films. Mr Jagdish Kulkarni visited EU office at Brussels and collected the video content. AVC is glad to get associated with international media experts through this network.
- Padmvibhushan Sundarlaalji Bahuguna visited YCMOU's AVC – as a guide and expert for production of environmental films.
- During the last 26+ years the AVC has created more than 1000 video programmes and over 2000 Audio programmes. Many programmes produced by AVC are nationally and internationally acclaimed.
- The AVC is known for its ultra modern equipment. In the last 25 years the AVC has updated itself with the latest and modern technology in the video and film media. Starting from Super VHS equipment now the AVC has fully tapeless – digital system of video recording and processing.
- YCMOU 's AVC was the first media centre in India to have Non Linear editing setup in 1996.
- The AVC staff is trained for technical and production skills. The staff has undergone training at Doordarshan Kendra Mumbai, IGNOU EMPC, ISRO studio, IIT Pawai interactive studio, BRAOU studio, Telerad Ahamdabad and Apple India Mac institute. Foreign media experts like David Saunders, Boris Ersson have visited AVC for on hands training to AV staff. All the staff is well trained for working with modern technologies.
- The AV staff has created special effort programmes like Video Programmes for Loom operators, house maids, Dabbawalas, Cobblers, Barbers and such lower income groups. Programmes for Urdu, Japanese and French language. Video programmes for traffic management
