Report on State Level Workshop on Cyber Security

- **Event Date:** 25th and 26th 2023
- **Venue:** Academic Hall , YCMOU
- **Target Participants:** BCA students are invited to participate.
- **Resource Person: Dr. Tanmay S Dikshit,**
CEH, ECSA, CCI, PGDCL,
Digital and Cyber Security Expert

- **Total Participant : 61**

- **Outcome of the Program:**

During Workshop Students learnt the fundamentals of cyber security. Cyber-attacks and cybercrime real-world case studies were given and discussed by Dr. Tanmay Dixit. He also spoke on the Internet's architecture, protecting email accounts, the need for strong passwords, securing social media accounts, the types and structures of DDoS attacks, and secure online transactions during the session. Additionally, students studied steganography and other techniques for disseminating malware and concealing information. With the help of actual examples and case studies, several attacks, such as phishing, spoofing, Trojan, logbombs, backdoors, and worms, were also demonstrated. Students also learned about Information Technology Act, 2000.
