

## **Rules and Terms & Conditions for Participation in "Nadi-ko-Jano"**

Research For Resurgence Foundation, as part of "Nadi-ko-Jano Abhiyan", has announced a competition for submitting facts about the rivers in neighbourhood. Following rules and conditions will be applicable to the competition.

### **1.0 Eligibility for Participation:**

Students of middle school, high school, higher degrees, faculties of educational institutions, staffs of NGO/CSOs, individuals all are eligible to participate in the competition. Categories for participants are in three age groups - below 18 yrs, 18-25 yrs & above 25 years. Multiple data entries from single registered participants are acceptable only if submitted for different rivers (not for different stretches of the same river).

### **2.0 Expected data on rivers in neighbourhood:**

Data to be collected and loaded while near to river. Participant must visit river and upload the data. Data should include

- a) Name of the location of the river (village, taluka, district, state), provide location co-ordinates from google/Bhuvan/Wiki map etc.;
- b) Name of the villages/towns from where river is entering from and leading towards;
- c) Three photographs of rivers as taken from participant's mobile or camera, with possibly date and GPS tag;
- d) Information of the river from literature such as books, magazines, websites, online reports etc. with references. This information may include length of the river, various names by which river is known, whether river is perennial or seasonal, any religious or archeologically important structure on the river;
- e) Information on the river collected from local residents, including various names by which river is known, whether river is perennial or seasonal, any religious or archeologically important structure on the river, any festivals on the river;
- f) What are the different usage of the river water at present - irrigation, drinking water, recreational activities, any other;
- g) What are economic activities linked to river stretch for the location (village/town);
- h) Information on the pollution aspects of the river stretch which include, visible colour of water, number of sewage/wastewater drains (nallahs) discharging into, whether any growth of weeds (such as water hyacinth, Jal kumbhi, duckweeds etc.), any industrial wastewater discharging, river stretch for which information is being submitted;
- i) Any dam upstream or downstream of the location on river, provide name of dam, map location co-ordinates wherever possible;
- j) Provide information if any flood occurred in past three years;
- k) What, in your opinion, is a must action to be taken for river rejuvenation for the river of which you are uploading information.

### **3.0 Evaluation Criteria:**

Evaluation of entries will be in general on following criteria

- a) Data having all fields filled as indicated in clause 2.0 from (a to k) will have better chances of winning;
- b) Accuracy of the locations and validation through map;

- c) Clarity of photographs;
- d) Originality of photographs, should not be copyrighted by third party;
- e) Quality of references given for collecting information;
- f) Quality of other information provided.

#### 4.0 Important Dates:
